

HOW TO SEARCH FOR CAPTIONED VIDEOS ON YOUTUBE

Closed captions on YouTube can either be provided by the owner of the video or are automated captions which use speech recognition software to transcribe the video.

To search for YouTube videos with closed captions on the YouTube website:

- Go to **youtube.com** and enter a search term (e.g. 'plants'). Click the search button.
- On the search results page above the generated results, click on the **'Filters'** button. Under **'Features'** select **'Subtitles/CC'**.

- The results will now be filtered to display all videos with closed captions.

Look out for the CC symbol under the video description. Any video with captions provided by the video owner is indicated by this CC symbol.

Select English captions for accuracy

When playing a YouTube video, select 'English' captions where possible to ensure your students watch an accurate transcription of the soundtrack. For more information on [captions and YouTube](#), visit the CAP THAT! website.

Looking for more captioned videos?

To [find captioned educational videos](#), visit the **CAP THAT!** website.

CAP THAT! is an initiative of [Media Access Australia](#), Australia's only independent not-for-profit organisation devoted to increasing access to media for people with a disability. It is a national awareness campaign encouraging teachers to simply turn on captions in the classroom for learning and literacy for all students.

CAP THAT! is supported by the Australian Government's [National Literacy and Numeracy Week](#) and endorsed by a number of peak bodies. The 2015 campaign is sponsored by the [Conexu Foundation](#), [TES Australia](#) and [Discovery Kids](#).
